

# Fire Service Training

Oklahoma State University | College of Engineering, Architecture and Technology

## 2018 Fiscal Year Annual Report

COLLEGE OF  
Engineering, Architecture and Technology

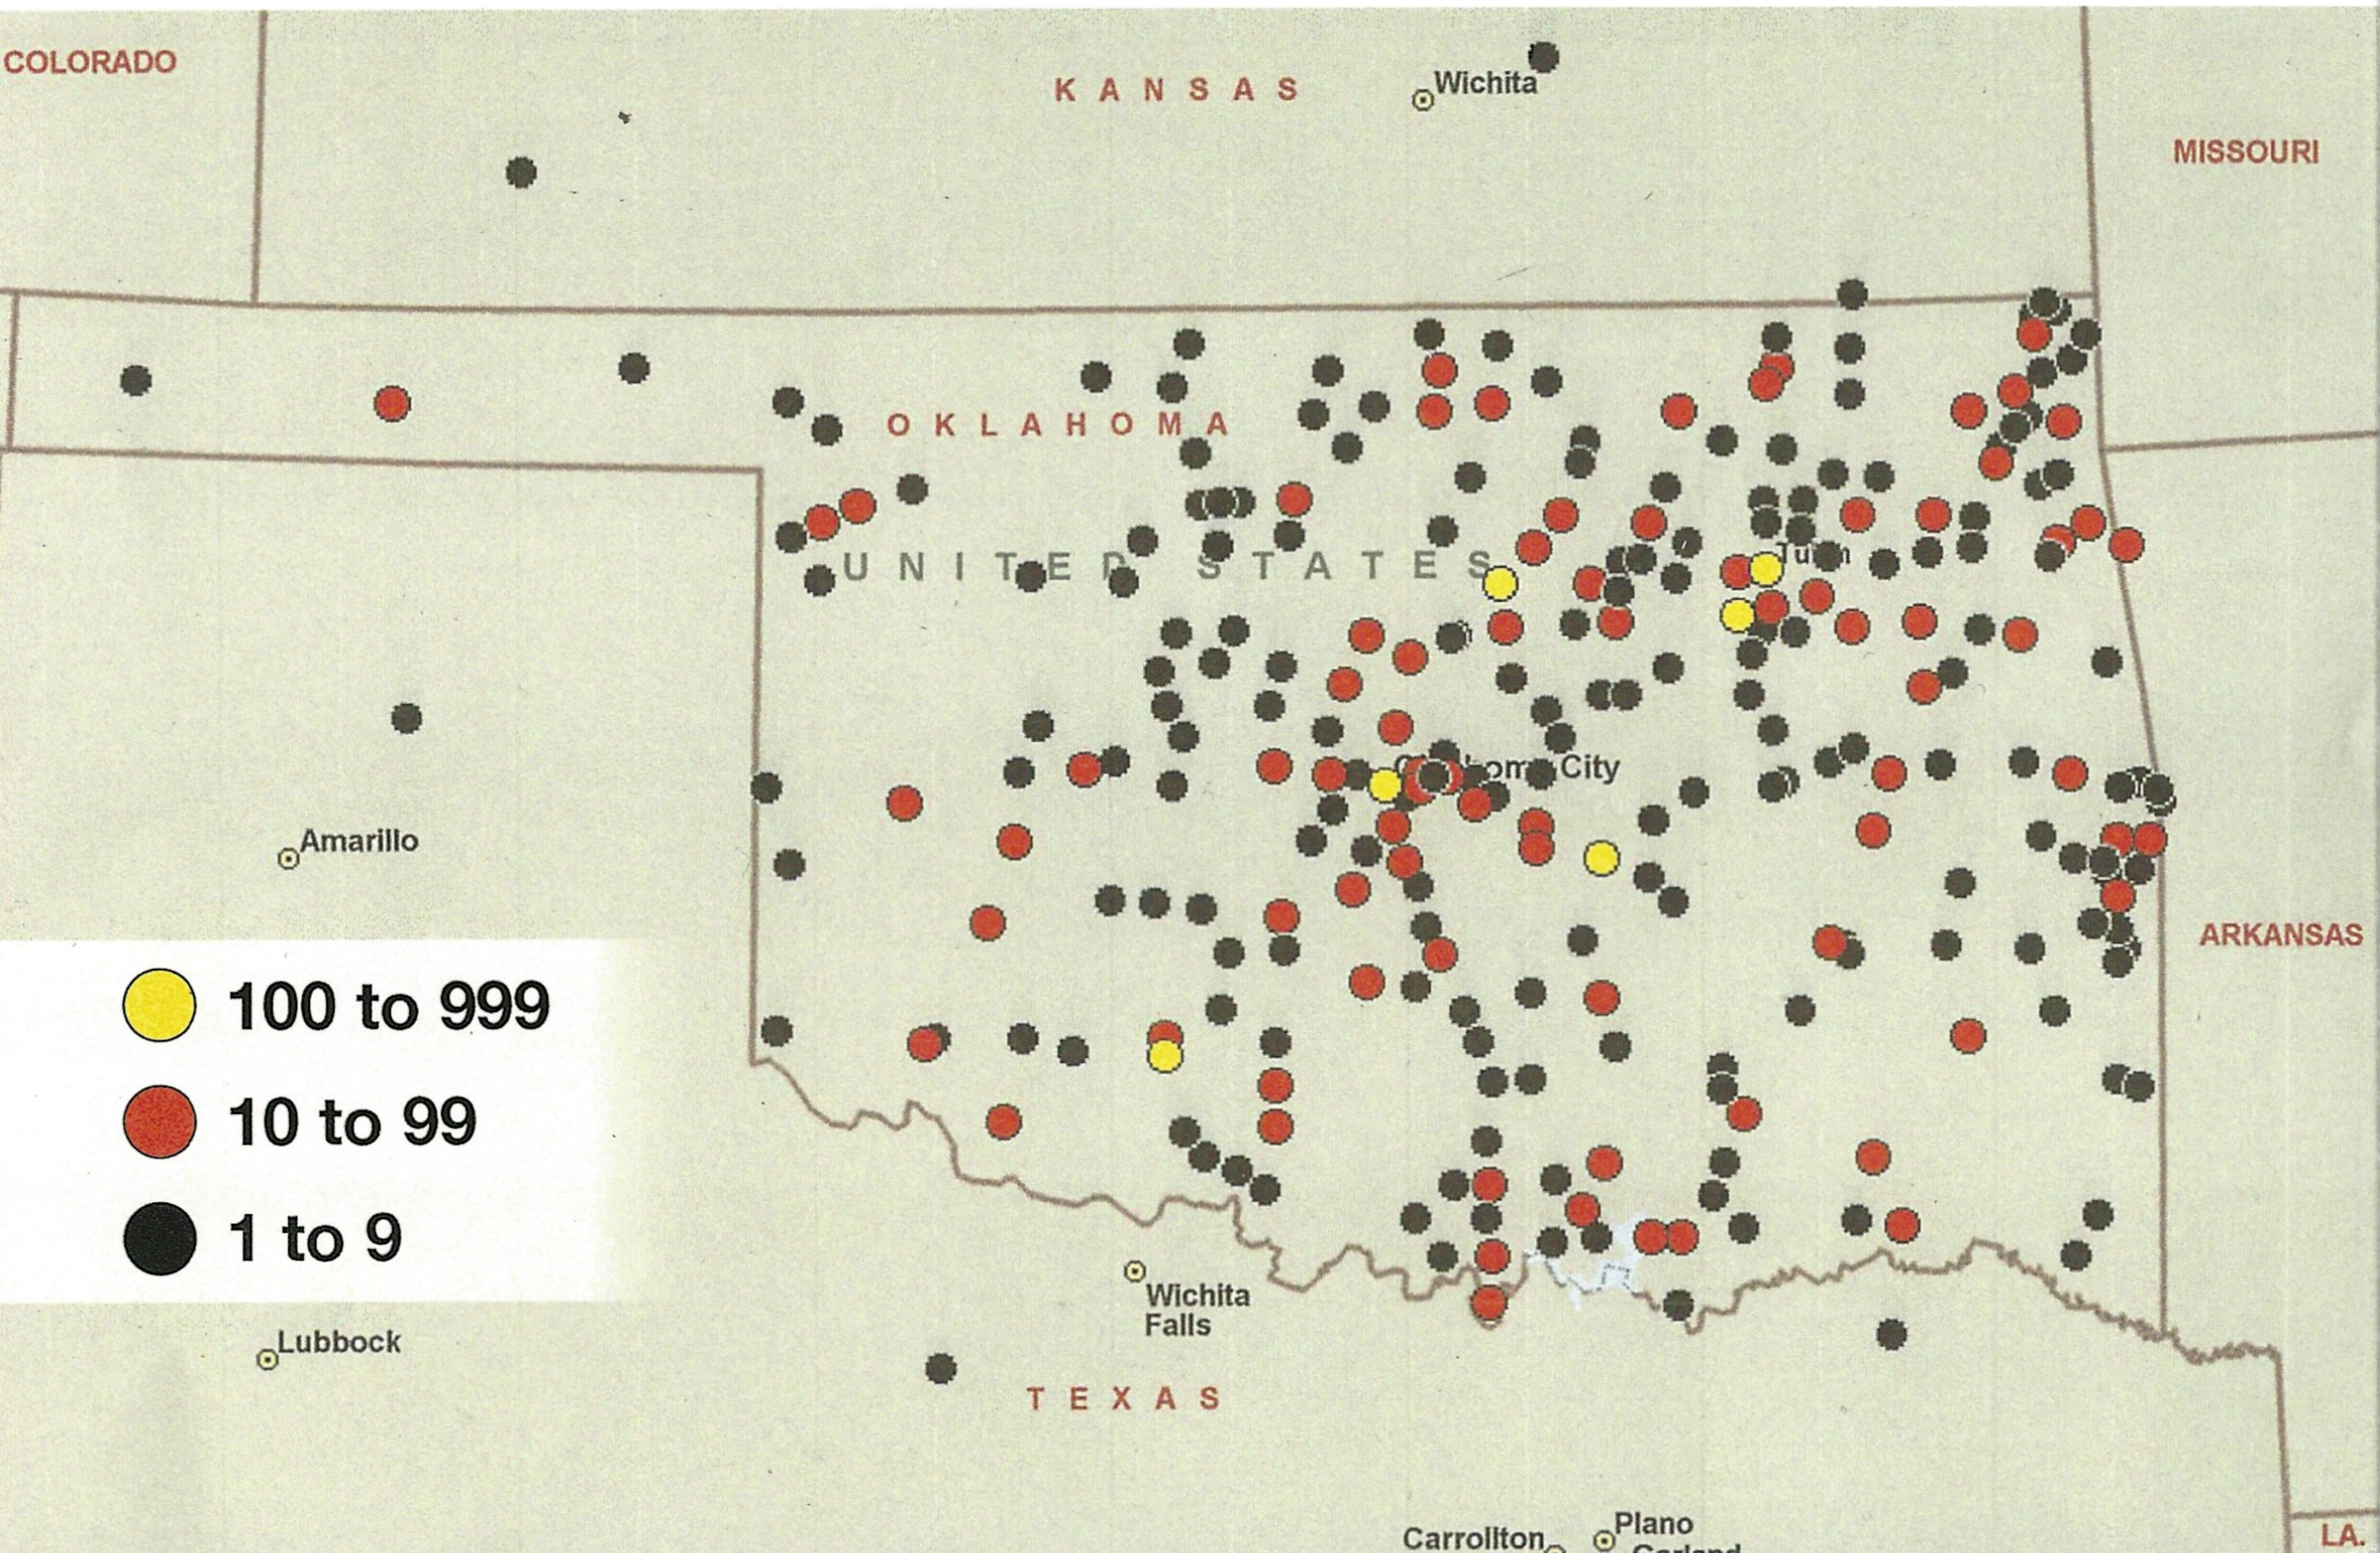

Friends,

Fire Service Training has a dedicated staff committed to serving the first responders of Oklahoma. We simply could not do what we do for the firefighters of Oklahoma without our many dedicated training partners! Please let us know how FST can be of service to your organization and help keep America's finest firefighters and first responders safe through high quality education and training.

Dr. Erick Reynolds  
Director, Fire Service Training

### Fiscal Year 2018 Number of Courses by City

OSU Fire Service Training, in partnership with Bio-systems & Agricultural Engineering and Triangle Insurance worked to design the grain engulfment and confined space rescue simulation trailer. This one-of-a-kind rescue trailer was funded by an assistance to firefighters grant. The trailer is a product of an Assistant

to Firefighters grant award and will be used in support of the Susan B. Harwood OSHA grant training. The purpose of the trailer is to train first responders and grain industry employees on how to work safely in grain storage bin environments, and if need be, how to safely rescue grain industry employees from grain engulfment if the need arises.

# Oklahoma State University Fire Service Training 2018 Events

Firefighter/ Wildland	806
Haz Mat	504
Certification Events	456
Rescue	84
Officer/Instructor	38
EMS	1274
Industrial	35
Rural	129
Administrative Services Provided	769

**Total: 4,085**

## Fire Emergency Services Training Center

**75,722** Trailer Delivery Miles

**351** trailer deliveries

**177,679** Miles Driven

Oklahoma State University Fire Service Training (OSU FST) was recently awarded an Assistance to Firefighters grant for a mobile live fire liquefied petroleum gas simulator. This is a multipurpose simulator that will allow OSU FST to provide live fire training that meets NFPA 1001 certification requirements for both Firefighters I and II. This prop also allows FST to take this training to rural areas where training facilities are not always available to fire departments. With this unit OSU FST will be able to provide specialized training in the areas of controlling propane tank impingement fires, flammable liquid spill fires, pipeline valve flange fires, vehicle fires and trash dumpster fires all from one trailer.

## Statistics - 2018

**4,085** Events

Students attending training **38,255**

**31,261** Hours taught

Cities that held an event **281**

**1,452** Organizations

Counties **77**
