

Fire Fighter I Certification

Skill # 6 SCBA Use with an exit through restricted passages.	Maximum Time Allowed: 15 min.
---------------------------------------------------------------------	--------------------------------------

INSTRUCTIONS TO THE CANDIDATE

While operating as an individual at a simulated hazardous environment and wearing full PPE and SCBA, candidate shall be able to exit hazardous area through a restricted passage (i.e. between wall studs, floor joists, or through a small window). Candidates will wear full PPE and SCBA.

CANDIDATE PERFORMANCE

1 st Attempt		2 nd Attempt	
Yes	No	Yes	No

Evaluator tells candidate: “You and your partner are separated. You realize that you are trapped inside this structure and unable to exit through the normal pathways. You cannot find your partner. Your only way out is through this restricted passage, once through, you must exit the hazardous area.”

Candidate has informed the evaluator that they have been trained in this skill ♦				
Informs incident command of situation, calls a mayday over handheld radio.				
Air conservation techniques begun.				
Activates “alarm” mode on their PASS device.				
Exit through restricted passage. ♦				
Respiratory protection is maintained (SCBA may be manipulated from normal position as long as respiratory protection is maintained at all times.) ♦				
SCBA is returned to normal position				
Communication maintained with Incident Command				
Exits hazard area. ♦				
Air supply is not depleted prior to exit.				
Communicates status to Incident Command.				
Total steps candidate must complete to pass:	8	Total		

♦ **Critical Step** - Failure on this step results in failure of the entire skill.

Fire Fighter I Certification

Skill # 6 SCBA Use with an exit through restricted passages.

Objective(s): 5.3.1(B), 5.3.5(B) NFPA 1001 Standard 2008 Edition

INSTRUCTIONS TO THE PROCTOR/EVALUATOR

Evaluator tells candidates to don full PPE and SCBA prior to the start of this skill. A restricted passage shall be no less than standard wall studs, 16" on center.

Proctor/Candidate Comments

I was informed of the task steps missed that resulted in the failure of this skill and the OSU-FST re-test policies.
