

Hazardous Materials Technician Certification

Skill # 22.1 Decontamination: Set up a corridor for a "Liquid" hazard	Maximum Time Allowed: 15 min.
--	--------------------------------------

INSTRUCTIONS TO THE CANDIDATE

The candidate, working as a member of a three- four man team, when given a simulated hazardous materials incident, decontamination equipment and supplies, and a copy of the "Site Safety and Control Plan" (ICS 208 HM), shall set up a technical decontamination corridor.

CANDIDATE PERFORMANCE	1 st Attempt		2 nd Attempt	
	Yes	No	Yes	No
◆ Candidate has informed the evaluator that they have been trained in this skill.				
◆ Using reference information provided, identifies the product and determines its hazards.				
Determines appropriate location, up hill and up wind of the spill.				
Sets up a level 2 DECON Corridor. Dimensions may be adjusted to meet the needs and conditions of the scenario provided.				
Sets three rows of cones appx. 100-150 feet long. Each row appx. 15 feet wide. This will create an entry and exit corridor to and from the "hot zone." (If available, cones should go from red to orange to yellow to green working toward the "cold zone")				
Lays a tarp within one corridor from the edge of the "hot zone" and rolls up the edges to create a water trap.				
Sets a "tool drop" bucket at the end of the center row of cones.				
Sets up three pools on the tarp. (1 st -Gross wash, 2 nd -wash, 3 rd -rinse)				
Sets up a water supply to the manifold. (1 ½ - 1¾" hose line)				
Sets up 2-4 garden hoses with wands from the manifold. At least one to each pool. Places at least one brush at the first two pools.				
Mixes soap/cleaning solution in buckets/garden sprayers and place one at each wash station.				
Sets up a PPE removal area. <input type="checkbox"/> Provide "dirty" PPE receptacle/s or bags. <input type="checkbox"/> Provide a stool or chair for each member of the Recon/Entry Team. <input type="checkbox"/> Provide a receptacle/s or bags for removed SCBAs				
Sets up a Medical Evaluation area near the edge of the "cold zone" with chairs or stools for each Recon/Entry Team member.				
Total steps candidate must complete to pass:	9	Total		

◆ **Critical Step** - Failure on this step results in failure of the entire skill.

Hazardous Materials Technician Certification

Skill # 22.1 Decontamination: Set up a corridor for a "Liquid" hazard

Objective(s): 7.4.5 (1-3) NFPA Standard 472 2008 Edition

INSTRUCTIONS TO THE PROCTOR/EVALUATOR

1. Candidate must indicate that they have been instructed how to perform this skill. A negative answer is an immediate failure. No second attempt is allowed. This step doesn't count for the total number of steps the candidate must complete.
2. PPE should be a minimum of level D gear
3. The product identification (UN number) will be given to the student at the beginning of the skill. This must be done to allow the candidate to determine how to set up the corridor.
4. The proctor must provide the candidate with the following equipment:
 - a. **Emergency Response Guide (ERG).**
 - b. **Material Safety Data Sheet (MSDS).**
 - c. **ICS 201-OS form.**
 - d. Cones, tarp, garden hoses and nozzles, manifold, pools, stools or chairs, buckets, brushes, soap, and 1 ½ - 1¾" fire hose.

Proctor/Candidate Comments

I was informed of the task steps missed that resulted in the failure of this skill and the OSU-FST re-test policies.
